

A volcano throwing off molten lava and in active operation was discovered by three cattlemen in Rye Patch, Humboldt county, Nevada.

### IN FIELD OF SPORT

RECORD GAME AT ADENA.

Cadiz, O., Aug. 15.—At Adena Sunday afternoon Adena and Mt. Pleasant teams played 23 innings to the score of 1 to 1. Darkness ended the struggle.

### HEAVY RAIN MADE PLAY IMPOSSIBLE

Teams May Play Double Header at Idlewild This Afternoon—Base-Ball Notes.

A small crowd gathered at Idlewild park Monday afternoon and sat for an hour to watch the little rain drops patter on the diamond. The hundred or so saw great puddles form and then they saw the sky clear and the diamond dry off except in certain spots. These certain spots were just where they would do the most harm. One was at the plate, another at short and another at first base.

The condition of the grounds would have spoiled any good game and owing to the small crowd it was decided to postpone the game until today. In all probability a double header will be played.

### NEW PRESIDENT

For Newark City Baseball League was Chosen Last Night, When C. E. Matthews Was Elected.

The City League managers met last night to arrange a new schedule for the remainder of season. The withdrawal of the Emerson team and the A. I. U. team from the league made this action necessary.

Before this matter was taken up, the resignation of Joe Miller as President of the league was read and accepted. Charles E. Matthews was elected his successor.

Curtis Rowe was appointed to arrange a schedule and report at another called meeting Friday night.

### NEW OHIO LEAGUE

Manager Locke Says One will be Formed Next Year and Newark and Coshocton Will be in It.

Coshocton, Aug. 15.—"Look for an Ohio league next year," says Manager Locke of the Lancaster team, "and I think Coshocton will be on the list, if your local fans will take an interest. Lancaster, Youngstown, Akron, Zanesville, Newark, and one or two others will be the circuit, and Coshocton is favored in many cities. You could get a speedy team from right among the Mountain players. That man Carnes is a corner. If he were taken in hand, trained down and given steady turns, he would make a whole lot of them take to the ball. You have a number of fast players who play the game naturally and in good style. Coshocton has more natural talent than any non-professional town I ever made. Get your fans together and there is a berth in the new Ohio league for you."

### KITTY LEAGUE GOES ON.

Paducah, Ky., Aug. 15.—At a meeting of the directors of the Kitty League it was decided to continue the season. Cairo was the only city voting to disband.

**BASE BALL NOTES.**  
Rain has played more havoc with baseball over the Central West during the past week than ever before.

Wilmut has rejoined the team and

was to have pitched the game against Mt. Vernon Sunday.

The Akron team during their stay in Newark was quartered at the Hotel Seiler.

The Phillies had not much difficulty in besting Niles with Stewart in the box. Dubbleby allowed the Crow outfit five hits and one run.

Lefty Boyle, late of Mt. Vernon, has joined the Niles bunch and Saturday defeated the Ohio Works, 4 to 1 in a six-inning affair.

Ned Iger, formerly with Mt. Vernon, is playing a great fielding game at Lancaster. Ned returned a clean hit to the plate in Sunday's game, catching a base runner who was trying to score.

Frank Reynolds, another jumper from Mt. Vernon, is with Lancaster. His addition doesn't cause any particular rejoicing at Lancaster and none of the Mt. Vernon fans are grief-stricken over his action.

Bill Sump, former guardian of the initial sack at Lancaster, is doing a stunt with the indicator. At Lancaster Sunday Youngstown never entered a protest against his work. Youngstown players are not in the habit of making an umpire's life miserable and as a rule they are willing to abide by his decisions. But only wait until Drumm and his Moguls go to Lancaster. There never lived an umpire but Knocb Somers who would umpire to please Zanesville and her fans.

Decatur, the Three-Eye league team with which Billy Puttall plays, has a chance to win the flag. The bunch is close on the heels of Dubuque and Rock Island.

### CHALLENGE FOR P. D. Q.

The M. & M. team hereby challenges the P. D. Q. to a game of baseball to be played on the Frog Hollow grounds Sunday, Aug. 20. Please answer through this column.

### WRESTLING

Much interest is being aroused over the approaching wrestling match between Luttbeg and the Kenton unknown, which will be pulled off Friday night at the Music Hall. All the admirers of Luttbeg are anxious to know who his opponent is and just how good a man he will prove himself to be. The articles of agreement which were forwarded to Kenton have brought no reply and until Luttbeg hears from that place he cannot advertise the Tonnenman-Newhardt match.

### Lipton Cup Races.

Chicago, Aug. 15.—The first of the series of races for the Lipton cup was won by the Detroit yacht St. Claire, which led all the way and finished 4 minutes 15 seconds ahead of Mendota of the Milwaukee Yacht club. Quen Sabe of the Columbia Yacht club, Chicago, was third, 13 minutes and 9 seconds behind Mendota, while the Hoosier, the other representative of the Columbia Yacht club, was last crossing the finishing line, 3 minutes and 53 seconds behind Quen Sabe. The race was at 12 miles, twice over a triangular course.

### Every Hour of the Day.

City Drug Store, the reliable Druggists of Newark, Ohio, are having calls for "HINDIPO," the new Kidney Cure and Nerve Tonic that they are selling under a positive guarantee.

Its merits are becoming the talk of the town and everybody wants to try it, and why not? It costs nothing if it doesn't do you good—not one cent.

They don't want your money if it does not benefit you, and will cheerfully refund the money. Try it today.

### THE POWER OF STEAM.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandridge, Fallin Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

### SEASHORE EXCURSION AUG. 17th

Low Fares via Pennsylvania Lines to Atlantic City, Cape May and Eight Other Resorts.

The annual excursion to the seashore via Pennsylvania Lines will be run Thursday, August 17, a convenient date for leaving business, and when the season at the ocean resorts is at its height. For this excursion tickets will be sold to nine of the most popular watering places on the Atlantic coast, including Atlantic City, Cape May, Anglesea, Avalon, Holly Beach, Ocean City, Sea Isle City, Wildwood, all on the Jersey coast; and Rehoboth, Delaware. The round trip fare for any of these resorts named will be \$12 from Newark, O. Fares from other ticket stations on Pennsylvania

Speaking of the "smart set," will somebody please explain the "smart?"

### Agonizing Burns

Are instantly relieved, and perfectly healed, by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully; that it blistered all over. Bucklen's Arnica Salve stopped the pain, and healed it without a scar." Also heals all wounds and sores. 25c at Hall's Drug Store.

### WOMAN BITTEN BY SEVERAL RATS

ONE OF THE RODENTS RAN UP CHAS. FOSTER'S TROUSERS LEG AND BIT HIM.

Earl Berry and Dessie Yontz Married—Traction Engine Goes Through Bridge—Beech Woods Items.

Thornville, O., (Beech Woods) Aug. 15.—Mrs. Clara Miller of this place was attacked and bitten several times while in bed early yesterday morning by a mob of blood-thirsty rats that found their way by the stair door to Mrs. Miller's bed room. The rats became frightened at the screams of the woman and retreated quickly down the stairway before her husband could put an end to them.

Today Charles Foster had a similar experience together with his son and a pedestrian. They were removing some rubbish when several rats sprang out in opposite directions and were pursued by dogs that were keeping a constant watch, one of the rats sought refuge in Foster's trouser leg. Vigorous stamping was to no purpose so he corralled it with his hands beneath the trouser leg and as he crushed it received a bite near the knee.

Elmer Seiberts and wife have returned home after a pleasant visit with friends in Columbus.

Earl Berry of Oakthorpe and Miss Dessie Yontz of New Salem caused some surprise to their friends through here by getting married Thursday evening.

Work to complete the Somerset and Redington Pike was commenced Monday by the contractors, Lawn Miller and Alva Colterman and a force of hands.

The Redington centennial celebration will be held in Swinehart's grove one mile north of that village Thursday, August 24.

A new bridge structure has been erected over Indian creek on the Gunbarrel-Hollow road, near Thomas Custard's home by the commissioners of Fairfield county.

West Rushville crossed bats with the "Bears" of this place Saturday were completely "walloped," the score being 10 to 2 in favor of the "Bears."

Baker & Company's traction engine caved through the county-line bridge near George Foster's residence a few days ago. It required the services of 25 men for some time before the engine could be removed. No serious damage was done.

John Asplach of this place was a Newark visitor Sunday.

Sam Grove and wife spent Sunday with Tom Gordon and wife.

The young son of Mr. Will Ryan of Oakthorpe had the misfortune to break his arm several days ago. This is the second accident that has occurred to this child.

Thornton Baker and James Wool attended the stock sale at Somerset last week.

Jacob Fisher is repairing his dwelling house this week.

Frank Winegardner is repairing his well drill at present.

David Hanby and wife are the recipients of a girl baby.

### WORTH MORE THAN THEIR WEIGHT IN GOLD.

Pepsikola Tablets Of Priceless Value in Relieving Indigestion.

Health is everything. Many a millionaire would willingly part with half his fortune for perfect digestion. Riches, fame and the realization of every desire cannot create contentment if indigestion is making one's existence miserable. When Wiles-Erman Drug company tell you that in all their experience they never knew anything so sure to relieve sour stomach, coated tongue, dizzy spells, poor appetite, lassitude and fatigue due to imperfect digestion, there must be some good reason for their confidence, and there is. Dozens of chronic old dyspeptics right here in Newark who despair of ever getting relief have tried Pepsikola Tablets on Wiles-Erman Drug company's recommendation and today are completely cured. Moreover, a druggist could not afford to keep on recommending an indigestion remedy unless it really will cure, for you would mighty soon lose confidence and trade at some other store. Pepsikola Tablets are a grand nerve tonic; they will give you a new energy and new ambition, improve your appetite, strengthen your digestive organs and unless they give you perfect digestion Wiles-Erman Drug company will gladly pay your quarter back.

### Counted Her Chickens Etc.

Cleveland, Aug. 15.—A new feature in the strange history of Mrs. Cassie L. Chadwick has developed with the information that she drew a will some time ago, in which she provided for the distribution of an estate of from \$4,000,000 to \$5,000,000.

The will is remarkable for its bequests to charity. There is hardly a charitable institution in the city which is overlooked. Relatives fared no less generously than did the benevolent institutions.

The Euclid avenue residence was to become the property of Mrs. Chadwick's husband, who was also to have a third of the estate. Liberal provi-

### SHAKEUP

Among the Agents of the Internal Revenue Service.

Washington, Aug. 15.—There has been a big shakeup among the revenue agents of the internal revenue service, but just how far it has gone is a matter of speculation. It is stated, however, that four well known revenue agents have been asked for their resignations and at least two of the four have come here for a personal conference with Commissioner Yerkes of the internal revenue bureau. These are Captain Charles H. Ingram, in charge of New England work, stationed at Boston, and C. H. Burg, who has had a section of the southwest under his charge and has been located in Texas.

**New York Fire.**  
New York, Aug. 15.—Damage estimated at \$100,000 was caused by a fire in the building Nos. 204-206 Greene street, occupied throughout by manufacturers of clothing. The concerns involved, all of which sustained serious loss, are Harper Hollingsworth & Darby, Thomas Gordon, Enterprise Suit and Coat company, Victor Oppenheim & Co., Hendelhan & Lippman, Hernan Eshborn and Unger & Greenwald.

Meet to Drill.  
The L. A. B. R. T. will meet Thurs-  
day afternoon at 2 o'clock for drill.  
No members of the team are request-  
ed to be present.

Prayer Meeting.  
Prayer meeting will be held at  
Mitchell hall on North Eleventh street  
this evening. Services will be conduct-  
ed by Mr. Ed Larson.

Barbecue Club Meeting.  
There will be an important meeting  
of the Barbecue club this evening at 8  
o'clock at Uncle Joe Kuster's. All  
members requested to be present.

Daughters of America.  
Banner Council No. 101, Daughters  
of America, will hold their regular  
meeting this evening at the K. of P.  
hall. All members are urged to be  
present.

Remodeling Begins.  
Otto Vogelmeier began work Mon-  
day morning in remodeling the front  
of his South Side saloon and restau-  
rant, the new one to be what is known  
as a "cigar store front."

Excursion From Brice.  
An excursion consisting of about 150  
people came to Hebron from Brice, O.,  
over the T. & O. C. R. R., Tuesday  
morning and were transferred to Buck-  
eye Lake in electric cars.

At Blue Jay School.  
There will be an ice cream social  
at the Blue Jay school house next Sat-  
urday evening, Aug. 19, for the benefit  
of Mr. Brown. Everybody is invited  
to attend. Come every one and help  
us. 411 w1\*

The reporter was greatly surprised  
at the simplicity and merits of the  
Kero-Air burner now on exhibition  
at Allison & Williams, 53 West Main  
street and we urge all our citizens to  
call there and see this burner in op-  
eration on the large range.

Rain Makes Corn Grow.  
The recent rains have had a won-  
derful effect in reviving vegetation. Re-  
ports from the rural districts bring the  
news that the corn crop will be in-  
creased many thousands of bushels in  
this section. The rain was of the type  
that is dear to the farmer.

Family Reunion.  
Quite a number of people from Etta,  
this county, left for London, O., Tues-  
day morning to attend a big family re-  
union. The party went in a chartered  
car over the Buckeye route to Colum-  
bus, and from Columbus the car was  
run to London over the Columbus, Lon-  
don and Springfield road.

Columbus Crowd Coming.  
Wednesday the Columbus, Buckeye  
Lake and Newark Traction Company  
expects to have a heavy excursion busi-  
ness out of Columbus. Arrangements  
are being made to take out one of the  
largest crowds of the season. The Hub  
Board of Trade, the South Side Busi-  
ness and Improvement Association and  
the Retail Grocers' Association will all  
leave Columbus at an early hour in the  
morning for Buckeye Lake, where they  
will enjoy a day's outing.

Black Hand Reunion.  
Don't forget the annual reunion at  
Black Hand on next Thursday, Aug.  
17. We expect the best time and the  
largest crowd we have ever had. Gov-  
ernor Herrick, General R. B. Brown  
and other good speakers are expected  
to be there. Round trip from Newark  
20c. Get your tickets from some com-  
rade on the street or at Interurban sta-  
tion on Thursday morning. Bring your  
baskets brimful of good things and we  
will insure you a hearty welcome.

At Catholic Church.  
Tuesday morning the great feast of  
the assumption was celebrated at the  
St. Francis de Sales church with two  
masses at 6 and 8 o'clock. The first  
mass was celebrated by Rev. Father  
O'Boyle and the second by Rev.  
Father Plunkett. The feast of the as-  
sumption is one of the most important  
events in the calendar of the Catholic  
church. It is thus called because on  
this day, according to a very old and  
pious belief, the immaculate mother  
of God was, in body and soul, taken  
up into heaven. This feast is one of  
very great antiquity.

Pleasant Family Reunion.  
A very pleasant family reunion was  
held Saturday and Sunday at the home  
of Mr. and Mrs. J. L. Barbee, a short  
distance east of the city. All seemed  
to thoroughly enjoy the occasion and  
this enjoyment culminated in the sum-  
mons to the principal feast in the din-  
ing room. Those present were: Mr.  
and Mrs. J. L. Barbee and daughters,  
Mary and Anna; Mrs. A. Woodard of  
Grafton, W. Va.; Mrs. M. E. Dean of  
Grafton, W. Va.; Mr. and Mrs. Clar-  
ence Burke and daughter, Elma Paul-  
ine of Columbus; Mr. and Mrs. Reg-

inald Woodard and son Paul, Miss  
Jacque Barbee and Mr. and Mrs. John  
Evans and son Byron.

Boys' Brigade.  
All members are requested by the  
sergeant to meet at the armory to-  
night, 7:30, to get the particulars con-  
cerning the camp.

St. Paul's Lutheran.  
Inasmuch as the present Sunday  
school series of lessons is taken from  
the Old Testament, Rev. J. C. Schindel  
will deliver a special lecture Wednes-  
day evening at the St. Paul's Luth-  
eran church on Hebrew history and  
geography.

Are Quarters Unlucky?  
Has it ever occurred to you who are  
superstitious about the number "13"  
that almost daily you may be carry-  
ing around with you a piece of money  
that is just full of thirteens? Just  
take a look at a quarter of a dollar,  
and you will note 13 letters in the  
words, "quarter dollar," 13 arrow-  
heads, 13 feathers in the eagle's wing,  
13 parallel bars on the shield, 13 let-  
ters in the scroll in the eagle's beak,  
13 stars, 13 horizontal stripes and 13  
leaves in the olive branch. If this in-  
formation happens to be new to you,  
and you are superstitious about keep-  
ing quarters, we would add that there  
are a whole lot of people in this world  
who will very graciously relieve you  
of coins of that denomination.

Grave Trouble Foreseen.  
It needs but little foresight, to tell,  
that when your stomach and liver are  
badly affected, grave trouble is ahead,  
unless you take the proper medicine  
for your disease, as Mrs. John A.  
Young, of Clay, N. Y., did. She says:  
"I had neuralgia of the liver and stom-  
ach, my heart was weakened, and I  
could not eat. I was very bad for a  
long time, but in Electric Bitters, I  
found just what I needed, for they  
quickly relieved and cured me." Best  
medicine for weak women. Sold under  
guarantee by Hall's Drug Store, at 50c  
a bottle.

HEISEY FACTORY  
IS IN OPERATION

INDICATIONS ALL POINT TO BIG  
BUSINESS DURING THE  
PRESENT FIRE.

Exact Date for Opening Everett Fac-  
tory Not Yet Fixed, But It Will  
Be Started Soon.

The Heisey glass works started in  
operation Monday and the company is  
now running both night and day shifts  
full time.

The indications are that this com-  
pany will have the best season of its  
existence, as orders are now in that  
assure the running of the factory at  
the limit of its capacity for several  
months to come.

The date for the opening of the  
"fire" at the Everett bottle plant has  
not been definitely set, but several of  
the tanks will undoubtedly be put in  
operation, the day after Labor day, as  
is the usual custom. The entire plant  
will soon thereafter start up with a  
full force.

WALTER E. GRIGGSBY.  
Walter Edward Griggsby, aged 3  
months, died at the home of his par-  
ents, Mr. and Mrs. Henry Griggsby,  
at 5 o'clock this morning of cholera  
infantum.

LAURA L. CORDRAY.  
Laura Leslie Cordray, daughter of  
Calvin and Minerva Cordray, was born  
Feb. 15, 1888, and departed this life  
Aug. 12, 1905, aged 17 years, 6 months.  
She united with the Methodist Protes-  
tant church in December, 1903. She  
ever lived up to this faith and had  
hopes that reached beyond the grave.

Her last words were a prayer for  
her loved ones and "Take good care  
of mamma." She bore her great suf-  
ferings with great patience and was  
fully reconciled to go. She leaves a  
father and mother, three sisters and  
two brothers, besides a host of friends  
and relatives to mourn her loss. Les-  
lie was an obedient daughter, a kind,  
loving sister and a faithful friend and  
Christian. She will be sadly missed  
in the home circle. The funeral ser-  
vices were conducted by Rev. Mr. Sher-  
wood and the remains were laid to rest  
in the cemetery nearby, followed by  
a large concourse of friends and rela-  
tives.

A FRIEND.  
Recent pictures of the czar and  
the czarina indicate that both have  
aged within the past year. This, how-  
ever, is more true of the czarina than  
of the czar.

SCHOOL BOARD TO  
MEET THIS EVENING

BIDS FOR \$15000 WOODSIDE BONDS  
ARE TO BE CONSIDERED  
AT THIS SESSION.

Forty Thousand Not Enough and Board  
Will Probably Give Notes For  
Five Thousand Additional

There will be an adjourned meeting  
of the Board of Education tonight,  
at which the bids for \$15,000 worth of  
the city's bonds will be considered,  
the money to be applied on the con-  
struction of the Woodside school  
building, now being erected. It is  
expected that the structure will be  
completed by November 15.

Last November the electors author-  
ized the Board of Education to issue  
\$25,000 of bonds, but this amount was  
soon seen to be inadequate to com-  
plete the building. Accordingly the  
Board decided to bond itself to the  
limit allowed by law, in any one year,  
and borrow \$15,000, which would to-  
tal \$10,000. This amount is still in-  
adequate, and probably \$5,000 addi-  
tional will be needed to complete the  
work. The Board will probably give  
notes for this amount, which will  
next year be cancelled by money re-  
alized on another sale of bonds.

NOVEL SUIT FILED  
HERE TUESDAY

Action Commenced on Behalf of Rob-  
ert Rinker Against Tannehill,  
Williams and Swartz.

A novel lawsuit and one of great  
interest to men who are working for  
the factories and for other employers,  
was commenced Tuesday by Smythe  
& Smythe, attorneys for Robert Rin-  
ker, against R. L. Tannehill, Eli Wil-  
liams and F. M. Swartz.

The petition states that Eli Wil-  
liams is a justice of the peace, having an  
office in an almost inaccessible place  
in Madison township, and that R. L.  
Tannehill entered into a contract with  
Williams to evade the exemption laws  
of Ohio and thereby to deprive labor-  
ing men and mechanics of their per-  
sonal earnings. The petition alleges  
that Tannehill caused to be printed a  
lot of blanks purporting to be writs  
of attachment and summons, which he  
keeps in his office in Newark and that  
he gathers up claims for debt against  
employees who live in Newark and then  
fills up the blanks and signs the name  
of Eli Williams to them and then de-  
livers them to his office boy (whom  
he designates in the paper as a de-  
putied constable) to be served upon the  
employer of the man against whom he  
pretends to have a claim, and that the  
time named in the paper for trial is  
4 o'clock in the evening. The petition  
states that the purpose of these two  
defendants is to harass and annoy de-  
fendants and their employers and to  
prevent the defendants from making  
defense against claims which are un-  
collectable in any legitimate way in  
any proper court.

The petition states that in pursuance  
of this conspiracy to evade the law  
Tannehill, Williams and Swartz caused  
one of the blanks to be filled stating  
a claim in favor of Swartz for \$81  
against Rinker and caused the same  
to be delivered to Graef & Bradley,  
livemen, who are employers of Rin-  
ker, and that thereby Rinker has been  
deprived of his wages amounting to  
\$18, which are exempt by law from  
attachment and execution, and that  
the claim accrued more than 10 years  
ago and is barred by the statutes of limi-  
tation and that the claim is not correct.  
The petition states that Eli Williams  
has no jurisdiction to act in the mat-  
ter and that the whole proceeding is  
a fraud of the law. Judge Irvine granted  
an injunction restraining defend-  
ants from going any further in the mat-  
ter. Rinker also prays judgment for  
\$1000 damages.

## MANY ARE COMING TO CENTENNIAL

ALL INDICATIONS POINT TO BIG ATTENDANCE IN GRANVILLE NEXT MONTH.

Miss Whitney's Pen Sketches in Centennial Quarterly—News Items From College Town Granville.

Granville, O., Aug. 15.—Among the cards of acceptance received at headquarters, besides those noticed in last week's Advocate are those of W. G. Edens, S. B. Brilerly, Charles A. Marsh and daughter, Chicago; Frank T. Cole, Mr. and Mrs. L. R. Smith, Mrs. Robert Neil, Mrs. Marietta Park, Mrs. Alvira Smith, Frank Talmadge, Columbus; W. F. Chamberlin, Mrs. Chamberlin, Miss Susan Chamberlin, Dayton; Mr. and Mrs. Irving Drew, Miss Ellen Drew, Portsmouth, Ohio; Irving Field, Woodshole, Mass; Mrs. James A. Huston and family (Miss Amanda Wilkin) Sewickley, Pa.; E. A. Jones, Johnstown, O.; J. A. Montague, Mattoon, Ill.; Ralph B. Miller, Walter L. Flory, Ralph S. Leonard, Howard Lewis, Ralph Struble, Eugene Huffman, Fred Huston, F. C. Ewart, Mrs. Ewart, Hamilton, N. Y.; A. S. Roe, New York City; Frank H. Morse, Cincinnati; Henry Bushnell, Westerville; George Swainhart, Wooster, O.; D. A. Williams, Hallmore, Mo.; G. E. Leonard, Mrs. Leonard, Norwalk, O.; Charles T. Thompson, Minneapolis; Mrs. Mary D. Raymond, Miss Isabel Raymond, Milwaukee, Wis.; Mrs. Dora L. Henderson, Topock, Kansas; Mrs. Alice H. Rice, Las Vegas, N. M.; Mrs. Edith Stone, Philadelphia, Pa.; Mrs. E. R. Phelps, Miss Helen Phelps, Des Moines, O.; Mrs. Moore, Miss Susan Maxwell Moore, Morgantown, W. Va.; Rev. and Mrs. J. S. Huston, Allegheny, Pa.; Mrs. Luella Gurney Rausch, Atlantic City; Edward and Mrs. Tiant, Alexandria; Mr. and Mrs. S. P. Trevis, Somerset; Mrs. James Christy, Akron; Mrs. Charles Chandler and daughter, Chicago; Mrs. Clara Mitchell Quinniss, Dayton, O.

Alumnae of Granville Female College will appreciate the delightful sketch from the pen of Miss Hattie Whiting on the "History of G. F. C." in the Centennial Quarterly. That publication will be a more valuable compilation than was at first expected, both on account of the wealth of material offered, and also for the numerous fine illustrations, which

add greatly to the attractions of the volume.

Mrs. Luella Gurney Rausch writes from Atlantic City, N. J., that she will be present at the coming celebration, and that she has consented to enter her pictures at the Arts and Crafts exhibit in Cleveland Hall during that week. Her work will make a fine display—especially those pictures which were in the "Academy" exhibit of the American Water Color Society in New York. Mrs. Rausch ranks well among artists in the East.

There are many people still living in Granville and many more expecting to return for the Homecoming who haven't forgotten Charles L. Allen of Chicago. Thirty years ago he was one of the most popular fellows at Denison, and evidently hasn't forgotten the old town among the hills.

Rev. and Mrs. Dudley will be the guests of Mrs. C. B. White and Mrs. Sarah Sinnott during Homecoming week.

Mrs. Clara Mitchell Quinniss of Dayton writes: "Indeed I am coming to the Granville Centennial, if I have to come on horseback, as my grandfather came from Massachusetts in 1805!"

Mr. Joseph Green of Troy, O., has been spending a few days with friends in the village.

Robert Hunt of Franklin has been visiting friends in town for some days.

Ellis Legler of Dayton spent a few days in the village.  
Mr. and Mrs. H. C. Benner of Ash-tabula, O., who have been here for a few days, the guests of friends, returned home on Tuesday.  
Miss Clarice Williams of Columbus, is visiting in the village for a few days.

After a short though pleasant visit with relatives east of the village, Mrs. M. D. Noble has returned to her home in Plymouth, O.  
Mrs. William Ackley and daughter Marie, returned Saturday from a week's outing at "Reswell Cottage," Buckeye Lake.

Mrs. S. A. Loeck and children of Cannonsburg, Pa., are visiting Mrs. William Ackley at her home on West Broadway.

**They Appeal to Our Sympathies.**

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by all druggists.

## MISS ETHEL HUSTON

Submits to an Operation at St. Louis and Her Father Leaves for Mount City—Condition Not Serious.

Miss Ethel Huston, daughter of Mr. and Mrs. Samuel Huston of this city, is ill in St. Louis, but her condition at present is not considered alarming. Miss Huston for the past two seasons has been a member of the cast in the Deland Opera Company and had made a marked success in her career. Recently, however, a growth developed in her throat which grew worse, and when the company got to St. Louis, the young woman decided to have an operation performed, which was successfully done, and the specialist who is attending her is confident that the quality of her voice will not be impaired. Mr. Samuel Huston left Tuesday morning for St. Louis to visit his daughter.

## GROUND HOG

Gave Battle to the Woman and Sank Its Fangs in Her Limbs—She Is Seriously Hurt.

Huntington, W. Va., Aug. 15.—As the result of a desperate battle with a maddened ground hog, Mrs. S. G. Rose of Central City is confined to her bed. The animal had entered the yard of her residence and became engaged in combat with two young collie dogs, killing one and was rapidly getting the better of the other, when Mrs. Rose appeared, armed with a heavy poker. She attacked the brute. The hog turned on her, slaking its fangs in her ankle. It followed up the attack by biting her on the legs, cutting gashes two inches long and an inch deep. She finally killed the animal.

## GRATUIT.

Mr. and Mrs. Frank Watts of Gratiot entertained at their home a number of young folks from Brownsville Sunday. The guests were: Mr. Scott Krazier, Miss Edith Orr, Mr. Smith McCammon, Miss Effie Barnes, Mr. Earl Worman, Miss Ella Morehead, Scott Morgan, Guy Lawyer and Zack McCammon. Fine music was rendered by Mr. Morgan and Miss Orr and a bounteous supper was served.

## WEHRLE PLANT IS A BUSY PLACE

LARGEST FORCE OF MOLDERS EVER EMPLOYED THERE NOW AT WORK.

More Than Thirty Molders Could Not Be Hired, as There was no Room for Them—New Men Arrive.

The biggest force of molders ever employed at the Wehrle foundry went to work there Monday morning, practically every floor in the vast plant being occupied. Every department was in operation, including the polishing shop, where the strike still exists. The men who are working in this department are still under police protection, being escorted to and from their work by one or more of the special officers. More than 30 molders who applied for positions could not be hired, as there was no room for them. The Wehrle plant, as far as the molders are concerned, is an "air tight" union shop and committees were busy during the morning examining the cards of every man who went to work. A number were not allowed to continue a work because of the fact that they had no cards, or if they did have one it did not satisfy the committee. No excuse was accepted.

One man who came here from Detroit was found who said his card was in a local in the Michigan metropolis, and was on his way to Newark and would be here Tuesday.

"All right," replied the chairman, "then you can go to work Tuesday, but not today."

The hard day's work, after several week's idleness, told on the men and most of them were completely exhausted when they finished work.

Shop committees also went through the factory and took an account of the apprentice boys, to see that no more than the number allowed were at work.

## NOTICE.

On account of annual outing, all shops of the members of the Master Horse Shoers' Association will be closed Saturday, Aug. 19. 8-14-05: awt

## PAPERS SERVED

In a Divorce Case as Mrs. Bell, Wife of a Chicago Society Leader, Left the Steamer.

Chicago, Aug. 15.—Society received a severe jar when Harry C. Bell, manager of the Cupples Envelope company, at 28 Lake street, with factories in New York, St. Louis, Boston, and Chicago, brought suit for divorce, making sensational charges against his wife. Mr. Bell is wealthy, belongs to several clubs, and he and Mrs. Bell have gone with the best and most exclusive people in this city and New York, where Mrs. Bell was born and where her father is pastor of a fashionable church. The bill filed here in the Superior court charges Mrs. Priscilla D. Bell with misdemeanors and misconduct in many places.

Mrs. Bell is charged with traveling to and in Europe with William H. Hibbard one of the editors of the New York Journal of Commerce, as his wife. Mr. Hibbard is named in the bill. Two detectives, a man and a woman, followed them to Europe, keeping a close tab on their doings and returned with them on the steamship St. Paul.

As Mrs. Bell stepped from the gang plank to the dock in New York she was served with papers in the suit. It was discovered that Mrs. Bell filed a separate maintenance suit against her husband last October. The Bell's Chicago residence is 5340 Cornell avenue. Her father is Rev. R. M. Stratton of 94 West One Hundred and Fourth, New York.

## A GOD SEND

THE KEROSENE OIL AIR BURNER NOW IN OUR CITY.

Safer, Cheaper and Better Than Gas. Wood or Coal.

The above statements are almost too good to be true, yet they are true, and any one who doubts them can easily be convinced by calling at Allison & Williams, dealers in furniture and stoves, and see the burner in actual operation on one of the largest and best ranges made, the Malleable. This burner is a scientific triumph. Many million dollars have been spent by the different manufacturers trying to perfect a practical, cheap safe oil burner. It remained for the Chicago Hardware Foundry Company to accomplish these feats. The burner fits any stove or range,

uses the cheapest grade of kerosene oil and heats the largest range to a baking heat in 10 minutes. It has all the conveniences of natural or artificial gas, as well as wood and coal. It is superior to a gas stove for summer purposes, as by turning a simple lever you control the heat and throw it around the oven.

For winter purposes you reverse the lever and have a perfect heater, something the gas stoves have never been able to do.

The gas stove is fine in summer, but colder than icicles in winter and always dangerous, as is shown by the numerous deaths recorded each year, one of the latest victims being a prominent senator and wife. Volumes might be written on the merits of this burner, but the company manufacturing it prefer that every man and woman in our city should call and inspect it. See it bake biscuit in two minutes on the largest family range made. Convince yourself that there is no danger and that it is the cheapest method for either cooking or heating. It is a scientific fact that the hottest fire known is the oxygen-hydrogen fire. This is proven in every blacksmith shop as well as by the blow pipe. Remember this burner burns 99 per cent. air to 10 per cent. oil, and will be in continuous operation each day and evening at Allison & Williams' store, 53 West Main street.

They cordially invite not only their customers, but every citizen in this community to call and inspect the burner and see it bake. If it fails to give you better satisfaction than natural gas, artificial gas, coal or wood, it will cost you nothing. No danger, no ashes, no smoke, no fires to kindle. Cheaper and better than any other fuel. This is the guarantee of the Chicago Hardware Foundry Company and this paper can vouch for the reliability of the company, as they are rated at \$200,000.00, credit the highest. And we further urge our citizens to inspect this proposition, as from the inspection of ourselves it is safe and does what the company claim for it. And the price is in the reach of us all.

## Crew Lost.

North Sydney, N. S., Aug. 15.—A small schooner which was sailing along the coast off Lingan Head was struck by a severe squall and capsized. Before those on shore could make preparations for assistance the storm increased, and one by one the crew were seen to fall away from the bottom of their overturned craft. It is believed that all were lost. The steamer Caruna later left for the scene, and at a late hour had not returned.

It is pleasant for passengers to know that their lives are at the mercy of any railway employee who may happen to be absent-minded enough to leave a switch open.

## A BIG PARADE ON LABOR DAY

EVENTS SHAPING THEMSELVES FOR FINE TIME IN NEWARK ON SEPT. 4.

Joint Meeting of Union Men and Business People Will be Held Wednesday Night. Amusement Program.

There is every indication that one of the biggest, if not the largest, crowd ever assembled in Newark, will be here on Labor day, Monday, September 4. The committee which have the affair well in hand are much gratified over the outlook. They are doing their work well, and all they ask is the co-operation of the people.

At the meeting of the Trades Council on Sunday, Gottlieb Flohr, president of the Trades Council, was elected grand marshal of the day and was given four aids in the persons of Harry Shrumm, S. C. Alsdorf, E. M. Curry and Thomas Young.

A joint meeting of the committees representing the labor unions and the business men of the city will be held on Wednesday night, at which time the program of amusements will be formulated and the line of march decided upon.

The mammoth parade will take place about nine o'clock in the morning, and from that time until the last fire cracker is shot off at night there will be a continuous performance on the Public Square, consisting of all kinds of amusements, and there will be speaking by a number of prominent labor leaders. The address of welcome will be delivered by Mayor A. J. Crilly and the response will be made by the master of ceremonies, Mr. John A. Donahue, secretary of Trades Council.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer One Hundred Dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. ## FUEL SYSTEM IS CHANGED TO OIL

MEXICAN CENTRAL RAILWAY IS TO ABANDON COAL AND WOOD IN FEW WEEKS.

Airbrakes on Freight Trains—Scioto Valley Trolley Extension—Great Railway Enterprise—Notes.

City of Mexico, Aug. 15.—The Mexican Central railroad has begun active preparations to change its fuel system from coal and wood to oil, and within a few weeks the company will erect seven huge tanks for storing oil at various points. Vice President Hudson in an interview said: "At first we do not propose to supply all the divisions with oil burners. Only those divisions from Aguas Calientes and Tampico will be supplied for the present, but as soon as we can do so we will place all divisions of the main line as well as the branches under the oil-burning system."

**Airbrakes on Freight Trains.**  
Washington, Aug. 15.—The interstate commerce commission is about to take steps to require all railroads engaged in interstate commerce to increase the minimum percentage of airbrakes used on freight trains to as great an extent as conditions of equipment will permit. The commission has become impressed with the danger attending the operation of freight trains in which a small insufficient number of cars are equipped with airbrakes, operated by the engineer. It is added that the evident purpose of the law is to ultimately require the use of airbrakes on all cars of all freight trains.

**Head-on Collision.**  
Macon, Ga., Aug. 15.—In a head-on collision two miles from Macon between a northbound Central of Georgia passenger train and a southbound freight train two persons were killed and three were so seriously injured that death will probably result. The dead: Ben Jordan, colored, mail clerk, Macon; Joe Henry, colored, fireman passenger, Macon. The cause of the wreck was a misunderstanding of orders.

**Great Railway Enterprise.**  
San Jose, Cal., Aug. 15.—Tenders have been asked for the construction of a great railway from Arica, Chile, to La Paz, Bolivia. This great enterprise will give enormous impulse to export trade in Bolivia. The tenders will be opened Jan. 2, 1906.

**Scioto Valley Extension.**  
The south line of the Scioto Valley Traction Company will be completed to Chillicothe in seven days, and through cars from Columbus to Chillicothe will be put in operation Tuesday, Aug. 22.

E. R. Sharp, one of the officers of the company, stated Monday that for the present, at least the cars would not enter Chillicothe, but would go only to the city line, the council having not yet granted the company a franchise. The company is now putting switches into various manufacturing plants along the line, and by Sept. 1, will be doing a general freight business.

It is said that the Scioto Company is seriously contemplating running a line to Buckeye Lake, touching the lake in the vicinity of Summerland Beach.

**Keep Smoke From Station.**  
Contracts have been placed by the Pennsylvania railroad with the Westinghouse Company for electrically operated locomotives to haul all passenger trains to and from the East Liberty station into the Union Station of Pittsburgh. This will keep the smoke of engines out of the station.

**Surveying a New Line.**  
Bucyrus, O., Aug. 15.—The survey of the Columbus, Marion and Bucyrus Electric Railway has commenced. The line will be an extension of the Columbus, Delaware and Marion now in operation and will ultimately extend to Toledo and get into Cleveland over other lines. The road has been financed.

**Goes to the D. & R. G.**  
B. O. Engineer E. E. McElroy has gone to Denver, where he has accepted a position as engineer on the Denver and Rio Grande.

The only way to get some people to take a hint is to leave it lying around loose as though it were another man's private property.

## It Never Fails.

Thompson's Barosma, Kidney and Liver Cure has Never Failed in a Single Case.

We have never known Thompson's Barosma to fail in curing any case of Lumbago, Backache, Kidney, Liver and Bladder trouble, or Sciatic Rheumatism, neither have we ever known one single instance in which there was a return of the disease or any of its symptoms.

"A friend of mine was afflicted with Bright's Disease and given up by the doctors. He was urged to try Thompson's Barosma and today he is as well as ever."—A. J. Goodwin, 126 W. 19th St., Erie, Pa. The dollar bottle contains much more than two 50c. bottles.

## HODCARRIERS

Are Making \$40 a Week in Chicago and Can Associate With the Gilded Rich.

Chicago, Aug. 15.—The hod carrier has at last come into his own. Drawing a weekly stipend of between \$35 and \$44, he can now afford to laugh at clerks and salesmen who have regarded him as their inferior and look upon himself as the fit associate for trust magnates and bank presidents. A building boom in Chicago has sent the wages of the hodcarrier up the ladder which he has often climbed. For eight hours' work they receive 35 cents an hour. After that they get 45 cents an hour and on Sundays and Saturdays 60 cents an hour. Few of them are working less than 12 to 14 hours a day.

## WORLD'S CROPS FOR PRESENT YEAR

Harvest On the Whole Will Be Satisfactory—Foreign Crop Report Is Just Issued.

Washington, Aug. 15.—The foreign crop report to the department of agriculture announces that "in the countries of the largest production the crops of the principal bread grains can not be called abundant, but on a general survey of the field it seems probable that the harvest of 1905 will not be on the whole a bad one." In Great Britain and Ireland the area under wheat is estimated at 1,800,000 acres and the yield at 62,000,000 bushels, or 35 bushels to the acre, against an area last year of 1,400,000 acres and yield of 39,000,000 bushels, or less than 28 bushels per acre. The area under wheat in Manitoba and the northwest territories is fully 10 percent larger than ever before. In Argentina there is a good crop outlook, and the area of winter grain appears to be much larger than last year. In Australia the outlook appears more promising than in 10 years. Despite unfavorable weather reports, the outlook in Germany last month seemed fair. In Russia the crop prospects remained generally satisfactory, the winter cereals promising nearly and the spring cereals above an average yield.

**Fraud Exposed.**  
A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. BUCKLEN & CO., Chicago, Ill., and Windsor, Canada.

## WEDDINGS.

CABEL—BUCKINGHAM.

Mr. Roy Cabel and Miss Mabel Buckingham were married Tuesday at noon in the parsonage of the First Presbyterian church, Rev. Lester S. Boyce officiating. Mr. Cabel is the son of Mr. George Cabel of Chalfonts, O., and is employed as a mould maker in the Everett factory. Miss Buckingham is the daughter of Mrs. Josephine Buckingham, 21 Webb street, and has been a valuable employee of the Newark Telephone Company. The happy couple started immediately for Detroit and a tour of the lakes.

They will make their home on Shields street.

**NORRIS—HILBRANT.**  
Mr. Walter E. Norris and Miss Josephine C. Hilbrant were married Tuesday at 10:30 o'clock in the parsonage of the First Presbyterian church. Rev. Lester S. Boyce officiating. A few intimate friends were present. The beautiful ring ceremony was used.

Mr. Norris is the son of Mr. and Mrs. Albert Norris of Granville and is employed as telegraph operator of the B. & O. at Union Station. Miss Hilbrant is the popular daughter of Mr. and Mrs. Frank Hilbrant of Union township. The young couple started on the noon train for Washington, Baltimore and a tour through the East. They will make their home at Union Station, where after the 15th of September they will receive their many friends.

**BRIDE OF A WEEK**  
Says the Salesman Kissed Her and Rogers Languishes in Jail.

Goshen, Ind., Aug. 15.—C. E. Rogers, traveling salesman for a Chicago firm, and who says Richmond, Ind., is his home, is in jail in Marshall county charged with assaulting Mrs. Fred Hill, a bride of a week. Rogers sold the Hills some goods, and returning to their place the second time found Mrs. Hill alone. He is alleged to have announced that he could not resist her charms and hugged and kissed her. After a hard struggle she freed herself from Rogers' embrace and telephoned to her husband. Rogers declares he is being blackmailed.

## CRIMINAL CASES IN PROBATE COURT

MRS. LAJOS RADA BEGINS SUIT FOR DIVORCE, ALLEGING WILFUL ABSENCE.

Property Transfers—Licenses—Will Probated—The Day's News From the Court House.

Ohio vs. George Meek, assault and battery. Dismissed.

Ohio vs. G. D. Carney, practicing medicine without a license. Dismissed.

**In Probate Court.**  
Monday was the day on which criminal business in the Probate court was disposed of. The first case disposed of was that of the state of Ohio vs. Fred Siegel, charged with committing an assault and battery on Thomas Moore. It seems that Moore was acting in the capacity of special constable and had charge of several farms south of the city. It was charged that Siegel was engaged in picking blackberries on one of the farms when Moore ordered him off and threatened to arrest him. It was charged that Siegel then assaulted Moore. Siegel was found guilty and was sentenced to pay a fine of \$5 and the costs.

Thomas Trovinger, one of the lads who was charged with plundering the milk wagon of O. B. Young, in connection with Frank Weekley, was sentenced to the Reform Farm by Probate Judge Irvine, and sentence was suspended pending good behavior. The Weekley boy will have an opportunity to explain the part he took in the affair.

**Divorced Prayed For.**  
Gizilla Rada has commenced suit in the Probate court for divorce from her husband, Lajos Rada. The plaintiff says she was married to the defendant on July 10, 1900, in Budapest, Hungary, and that one child was the issue of the marriage. For cause of action she charges the defendant with wilful absence for more than three years. She asks for a decree of divorce, restoration to her maiden name and the custody of the child. F. A. Bolton is the plaintiff's attorney.

**Court Notes.**  
A. J. Wilson, administrator of the estate of Jesse Wilson, deceased, has filed his distributive account.

The will of Charles Hilbreth, deceased of St. Albans township, has been filed for probate and the hearing has been set for Aug. 22 at 9 o'clock.

Harriet Smith, administratrix of the estate of Harrison Smith, deceased, has filed her first and final account.

The will of A. D. Rose, deceased, has been admitted to probate.

Aaron D. Feity has been appointed administrator of Sarah Price, deceased. Bond, \$1000.

**Contractors Begin Suit.**  
Samuel B. Frisroe and Sherman R. Frisroe, partners in business in the name of S. B. Frisroe & Son, have commenced suit in the Common Pleas court against Martha Clark and Augustus C. Clark for balance due on a contract for the erection of a house for the defendants. The plaintiffs ask the court to take an account of what is due them in the premises, and that an order of sale be ordered that the property be sold by the sheriff or upon execution, and that plaintiff may have other and further relief as is consistent with equity.

**Real Estate Transfers.**  
Charles L. Wyeth and wife to Thomas P. Andrews, lot 3417 in Woodside addition to Newark, \$250.

Lorain, O., Aug. 15.—A Nickel Plate wreck victim, supposed to have been Joseph Alexander, a deserter from the navy, was this morning identified by his father-in-law as Reginald Millhuff of Findlay, O.

**Miss McCammett's Death.**  
Bladensburg, O., Aug. 15.—Miss Hannah McCammett, aged 66 years, died Saturday evening at the home of her nephew, Mr. Free Martin, with whom she resided. Death was due to stomach trouble, from which she had suffered for some time. The funeral was held Sunday afternoon at 3 o'clock, the Rev. Mr. Bender officiating. The deceased was a member of the Presbyterian church.

**Drake's Sentence Commuted.**  
Columbus, O., Aug. 15.—Governor Herrick commuted the sentence of Russell B. Drake, Seneca county forger, from seven to five years, and he will be released from the penitentiary immediately by expiration of sentence. Drake, while out of the state prison on parole, married Nora Schoemer of Cincinnati under the name of James Russell Lowell Miller. Drake was returned to the penitentiary for violation of his parole and his wife secured a divorce.

**Open Switch.**  
Portsmouth, O., Aug. 15.—Train No. 2, on the east end of the Cincinnati division of the Chesapeake and Ohio railroad, ran into an open switch at Garrison, Ky., across the Ohio river, striking the rear end of a mixed passenger train on the siding, wrecking the engine and damaging the passenger equipment. Engineer Snedeger of the passenger train was seriously hurt and Conductor Fish of the mixed train was also injured. No passengers were hurt.

**Boy Killed by Lightning.**  
Shelby, O., Aug. 15.—The three-year-old son of Mr. and Mrs. John Finney, residing seven miles south of Shelby, was instantly killed by lightning. The boy's parents were milking when a bolt struck the house and ran down the spouting and along the clothes line to where the boy was playing in the yard. His father and mother were knocked senseless, and upon regaining consciousness they found the boy dead.

**Physician Electrocutured.**  
Millersburg, O., Aug. 15.—Dr. Otto Negelsbach was electrocuted when he went to the stable to attend to his horse. When he reached the stable door he found a telephone wire in his road, it having broken and fallen. He took hold of it to throw it out of the way, when he fell, dying almost instantly. The telephone wire in falling crossed an electric light wire, which sent 1,100 volts through his body.

**Tarantula Kills Ohio Pastor.**  
Bellefontaine, O., Aug. 15.—Rev. Robert Grieve, once nominee of the Prohibition party for congress in this district and last year a candidate for the legislature, and who was well known throughout central Ohio, is reported dead in California, his death having been due to the bite of a tarantula. Rev. Grieve was the pastor of the Church of Christ at Fresno, Cal.

**Husband's Deed.**  
Celina, O., Aug. 15.—Martin G. Miller, 38, committed suicide by taking carbolic acid. Mrs. Miller left her husband at Piqua and came here to stay with her mother, Mrs. Bierey. Miller followed and a quarrel was the outcome. Miller stepped just outside the door of Mrs. Bierey's home, drank the acid and fell in the house. He died five minutes afterward.

**Saloon Dynamited.**  
Millersburg, O., Aug. 15.—A saloon recently set up just across the bridge, outside of the city limits, was blown up by dynamite. The roof was demolished, the front was blown out and the interior badly wrecked. No one was in the place when the explosion occurred. Perpetrators unknown.

## BANISHMENT

What It Really Means to be Deported to Living Death in Siberia—Horror and Sufferings.

Some time ago seven Russian prisoners who had made their escape from Siberia were picked up in an open boat in the middle of the Pacific, says Answers. They were taken to San Francisco, and the Californians, ever ready with sympathy, gave them clothes and food and found them employment.

Within a comparatively short time each of the seven fell into the clutches of the American police, and were convicted of crimes ranging from housebreaking to highway robbery and violence.

It was proved that one had been guilty of almost every crime, with the exception of manslaughter, since he arrived in San Francisco.

That a large number of innocent persons are banished to Siberia cannot be disputed, and this unfortunate state of affairs owes its existence to what is known all over Russia as "administrative process."

"Administrative process" allows of any person, man, woman or child, who is arrested on suspicion, to be sent into exile on an order from the minister of the interior for a short term or for life to any part of Siberia.

Persons arrested on suspicion and exiled may be genuinely suspicious persons, or they may be quite innocent of any intention to break the laws.

For instance, during the early stages of the Russo-Japanese war half a dozen young men and three girls were arrested in Moscow while reading and discussing a political work by a Russian writer. Without any form of trial they were, under this "administrative process," exiled to the mines.

On arriving at Tomsk the unfortunate exiles were forced to walk to Irkutsk, the capital of Eastern Siberia.

The distance between the two towns is 1,040 miles, and the exiles, whether young or old, are always expected to travel at the rate of 60 miles a week.

Irkutsk is the destination of many of Russia's exiles; but the party of young people we are referring to were driven on to the mines of Kara, some 700 miles farther east. The mines here are gold ones, and are the personal property of the Czar, and the young men of this party are now assisting in working them; but what is the fate of their early comrades can only be conjectured.

The unfortunate man or woman who is sent to Yakutsk rarely lives to return. This place is but a few degrees south of the Arctic Circle, and the only buildings it boasts of are rude huts, principally roofed with mud.

The revolutionary Leo Deutsch, who served 16 years in Siberia, tells us that he spent several years in the "primal wilderness" of Yakutsk. Here, he says, in 1889, were some young men and girls who were to be deported farther northward. There were school girls among them under 16 years of age.

The Vice Governor has given orders that these exiles were to be deported without delay, and a guard told them to betake themselves to the police. Fearing that they were to be sent to a living tomb without time for protest they refused to obey the order.

The Vice Governor thereupon sent a troop of soldiers to fetch the exiles, and a frightful scene began that even shamed savage Russia. The soldiers clubbed the young men and girls with the butts of their rifles, stabbed them with bayonets and shot them down unmercifully.

Six corpses were left on the ground and the dying and maimed, numbering 27, were thrust into prison. A few days later the imprisoned exiles were tried by court-martial and executed, and 19 were sentenced to penal servitude for life.

The prisons throughout Siberia are of a dreadful character. They are overcrowded with exiles, and the atmosphere in consequence, and through lack of ventilation, becomes so foul that the women are sometimes attacked by fainting two or three times a day. The beds of the exiles are absolutely swarmed with vermin, and no attempt is ever made to rid them of the pest.

The treatment meted out to women convicts is brutal in the extreme, and it makes one's blood run cold to think that human beings should be at the mercy of the savage soldiers in the employ of the Czar.

While Leo Deutsch was at Yakutsk a woman, by name Nadyeshda Sigida was flogged to death. She was alleged to have assaulted the commandant, and the Governor-General ordered that she should be subjected to corporal punishment. Sigida was, therefore, flogged, dying after the last blow had fallen upon her back.

Such are the horrors and sufferings that have to be endured by the wretched mortals in the living tombs of Siberia.

# When the Brake Broke

By FRED OHLE

Copyright, 1905, by E. W. Sargent

The Flyaway coach stood at the curb in its glory of red and black. The four blacks that took the first stage were clapping their bits and throwing flecks of foam on the admiring group of idlers, while Spencer Graul in smart coaching rig stood on the hotel steps.

Graul attracted almost as much attention as the well set up coach, for there was something curious in the idea of a millionaire driving a coach in which all might ride who had the \$10 for a ticket.

Graul and Tom Montgomery had set up the coach to awaken interest in four-in-hands. The run was to a river resort thirty miles up, where lunch was covered by the price of the ticket, and back to town again.

The papers had taken up the idea, and the runs of the Flyaway were booked far ahead. Graul had glanced idly over the booking list and had found thereon only one well known name. The others were all people whom he did not know, and he wondered whether he would ask Millicent Kent to occupy the box seat with him.

She and her mother were the only passengers he knew, and Graul thought he should give her the seat of honor, though he knew that she was deathly afraid of horses and was making the trip only because it was considered the proper thing to do.

He was still arguing when a little figure in gray darted past him and accosted one of the grooms standing at the horses' heads. The groom pointed to Graul, and that gentleman knew that she had asked for the driver.

The girl came toward him, and Graul noted approvingly that she was more than ordinarily pretty.

"Please," she asked, with a trace of western accent, "I want to ride on the box with you. May I? Do say yes."

There was a witchery in the eager eyes, and as she danced back into the

ungraciously. "But these are nice, polite roads and trained horses."

"Here's a nasty bit," he said, pointing with his whip.

Just beyond lay a sharp descent, which crossed the railroad tracks at the foot of the hill. The road was rough with the erosion of the spring thaws, and Graul came to a full stop as he reached the brow.

"Hank Whittlesby would have taken it full tilt," she teased, as she noted the precaution. Graul laughed, as the horses moved slowly forward.

He threw on the brake with care as the wheels began to grind in the gravel. He hated this bit of road when he had passengers on board. He always felt that if anything happened it would be right here.

And his fears were verified, for scarcely had they gone ten feet when, with a report like that of a gun, the brake rod broke and the terrified horses sprang into their collars.

This prevented him from turning them into the side of the road and stopping them. He would have to do the best he could now.

The girl gave a startled cry, and for an instant he wondered why she should scream, when a gray clad arm extended across his vision, now gined upon the road ahead.

The railroad tracks crossed the road just at the foot of the hill, and a fast freight had just come into sight around a curve. Graul knew that if he did not cross the track before the train reached the crossing he would smash into it and probably kill every one on board.

Instead of trying to check the horses he gave them their heads and used the whip, urging them to greater speed.

The light coach bounced and tossed over the heavy ruts, while the terrified passengers on the rear seats clung to the arms and added to the confusion with their screams. Only Daisy, her feet braced against the dashboard, was quiet.

With a bang they struck the foot of the hill. There was a sharp rattle as they crossed the tracks, and Daisy swung around in her seat.

"Beat 'em by a car length!" she called jubilantly. "Hank couldn't have done better than that himself!"

"Then you are ready to admit that we eastern dudes can drive?" He smiled at her as the horses slowed to a walk in the heavy sand.

"Admit it!" she echoed. "You're a wonder, and any time you want to come out west I'll recommend you to the stage company."

"I think," said Graul, "that when I get out west it will not be in search of a job, but in quest of some one to sit on the box seat with me."

Daisy looked at him keenly. He was not flirting, she felt with a thrill. He meant it.

"If you drive all around as straight as you do on the box," she said soberly, "I'll give you a recommendation for that."

The fact that they are to be married next month argues that he is an all around good driver.

As the East Indian Sees It.

A native of India who lost a large amount of money through the insolvency of an English merchant explained the English insolvency laws as follows: "In Burma the white man who wants to become insolvent goes into business and gets lots of goods and does not pay for them. He then gets all the money he can together—say, 30,000 rupees (a rupee is 23 cents)—and puts all of it except 100 rupees away where no one can find it. With the 100 rupees he goes to a judge of the court and tells him he wants to become bankrupt. The judge then calls all the lawyers together, likewise all the men to whom the white man owes money, and says, 'This man is insolvent, but he wishes to give you all that he has got, so he has asked me to divide this 100 rupees among you all.' The judge thereupon gives the lawyers 50 rupees and the remaining 50 rupees to the other men. Then the insolvent goes home to England."

Writing With Milk.

In the course of a trial in France a letter was read from a man named Turpin, a chemist, under sentence of five years' imprisonment as a spy, giving directions to a friend, with a view to establishing a secret correspondence with him while in prison. This led to an official inquiry on the subject by the French authorities, and some strange revelations were obtained from some of the convicts.

It appears that when information has to be conveyed to a prisoner a formal letter, containing apparently nothing but a few trivial facts of a personal nature, is forwarded to the prison. This is read by the governor, who stamps it and allows it to be handed to the man to whom it is addressed. The latter is aware, however, that there is another letter to be read within the lines, this being written in milk and being easily decipherable on being rubbed over with a dirty finger.—Chambers' Journal.

The First Will.

Wills were at first oral, as were also gifts of land, and were only morally binding on the survivors. Origin and other fathers of the early church credited Noah with having made a will, and in the fourth century the bishop of Brescia declared all those heretical who denied Noah's division of the world to his three sons by will. The oldest known wills are those of Egypt. Both oral and written wills not infrequently contained imprecations on those who should neglect them. The earliest written will in existence is that of Sennacherib, which was found in the royal library of Konynnik. There is a great sameness about our own royal wills. They mainly relate to beds, bedding, clothes, personal ornaments, gold and silver cups and payments for masses, and are generally as prosaic as one could contrive.

# The Kicker Editor Nails a Few Lies.

Forced to Bunch His Denials of False Paragraphs—Bunch the First.

[Copyright, 1905, by R. D. McChure.]

SO many false paragraphs are floating around about us that we cannot give space to denials every week. We shall in future bunch them every two or three months, and thus clear the slate. The following is bunch the first:

The *Massachusetts Tribune* says that we set fire to a schoolhouse in Michigan when we were only ten years old. We were never in Michigan, and at ten years old we were taking prizes for being the best boy in Sunday school.

Major Morse, who hung out in this town at the public expense for a year and is now in Illinois, says that one day we owned up to him that we had killed seven different men since residing in Arizona and that in each and every instance it was a foul murder. The only time we ever got confidential with the major was when we stopped him on the street and pulled his nose.

A Chicago paper says that our hands were dabb'ing in human blood before we reached the age of fourteen. Right are. It was our own blood, though. We used to have the nosebleed almost every day.

The people of Salt Lake City have been told that we have stolen over 100,000 head of cattle within the last five years and that in doing so we have killed no less than five officials of the law. Gee, but what an appetite we have for blood and beef!

The Lone Jack Recorder says it has positive information that we tortured a Digger Indian by burning the soles of his feet simply to hear him scream. We wonder that we didn't cut off his nose at the same time simply to hear him sing.

Ex-Judge Truax, who is now in Santa Fe, says that we made no less than three attempts to assassinate him during the two years he was a resident of the Gulch. The truth of the matter is that we made at least six attempts to get back the \$5 he borrowed of us when he first came to town.

The Grass Valley Tribune charges us, as secretary of the local vigilance committee, with having brought about the lynching of the Hon. James Stone, an innocent man. The Hon. James Stone was usually referred to as "Bloody Jim," and after he had wounded two residents of the town and defied the power of the law it was thought best to pull his neck a bit. He is believed to have reformed.

Colonel Drake, now in Indiana, says that we drove him out of Gileadman Gulch at the muzzle of a revolver because we didn't like the color of his eyes and that every human being in the town lives in daily terror of us. Colonel Drake jumped this town in the night owing \$150 borrowed money.

An Omaha paper publishes an item to the effect that we have had three wives and that each and every one of them came to her death in a mysterious manner. As we have never been married the mysteries will probably never be solved. If they ever are, we'll stand treat.

The story is current in Denver that as superintendent of an orphan asylum in Ohio we made a big bonfire and put sixty-four innocent little kids to bake. We think we hear the sixty-four laughing and crowing yet at the idea of getting good and warm.

The Pine Hill Banner says that we delib'ratedly cut the throat of our horse on the race track one day because he came in second and that we have been known to kill a sheep and drink its warm blood. We never had a horse that didn't come in first in a race, and the four barrels of cider we support from Colorado every fall last us through the year for drink. The childish way in which the sheep of Arizona look to us for protection always touched a tender chord.

A Florence paper says that when the Kicker claims to have a billion circulation it lies and knows it lies. The Kicker never claimed to have a billion circulation. Our figures never ap-

proached it within 5,000. We would like to reach an even billion, but we are not going to claim what we have not got.

The story that we shot the heels off the shoes of a woman sixty years old and gave her such a scare that she dropped dead of heart disease looks a climax. Why didn't the author put one on by saying that we roasted her and carried the ashes in a bag hung to our neck to keep the witches away?

We have no remembrance that while on our way to Wolf creek three or four years ago we descended from the saddle and took a papoose from the arms of its mother and dashed its brains out against a tree, but we see the item floating around and passing as truth. If the mother's story will come forward even at this late day we will tell her how sorry we are.

Moses Schiff, shyster lawyer, whom we drove out of this town a year ago and who is now a resident of New Mexico, says he will make oath that we are in the habit of disingenuous self and holding up travelers on the highway. Moses wept when he had to leave this rich field behind him.

A newspaper in St. Paul says that we entered the bank of Gileadman Gulch one day last year and held a revolver to the head of the cashier and made him cough up a loan of \$20,000. As we are proprietor and president of the bank and have every opportunity to lay hands on our own money, the story seems to have too many fringes on it.

M. QUAD.

Bobby's Apprehension.

It was the first view of New York harbor that little Bobby had ever enjoyed. Catching a glimpse of the statue of Liberty from a great distance, he called apprehensively: "Oh, mamma, mamma!"

"What is it, dear?" queried his mother.

"Won't—won't that big lady get her feet wet standing in the water?"—New York Globe.

An Absurd Phrase.

"Mr. Biggins has the artistic temperament."

"Don't say that," responded Miss Cayenne. "Whenever I hear that a man has the artistic temperament I can't avoid an impression that he borrows and forgets to pay."—Washington Star.

An Honest Confession.

She was a widow for the third time.

"Which of your husbands do you intend to associate with when you go to heaven?" asked the inquisitive splinter.

"On the level," answered the widow, "I don't expect to find either of them there."—Chicago News.

Superstitions.

"Mother, what sort of a sign is it when you dream that you are married?"

"They say that dreams go by contraries, my dear."

"Mother, I'll be afraid to go to sleep now."—Cleveland Plain Dealer.

Waning of the Honeymoon.

They had been married three months.

"If I am not home by midnight, darling," he said as he started downtown, "don't be anxious."

"All right, dearest," she replied. "And if I'm not home when you return don't worry."—Detroit Tribune.

Proved.

Parke—By the way, whatever became of our old friend Grigsby?

Lane—Why, he's gone into the grave-stone business.

Parke—Well, I always knew he was a monumental liar.—Life.

The Waiter—Yes, sir—with real lobster or lobsterine?—Puck.

Beating Time.

"Haven't I told you that every time the clock ticks while you are idle a second is lost?"

"Yes, ma'am, but I've stopped the clock."

The Old Story Again.

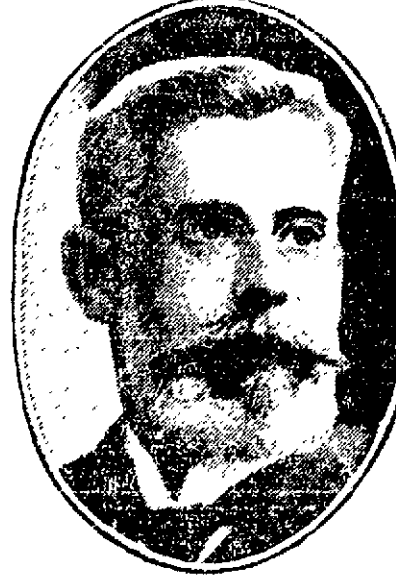

Mamma is in the garden

# Fighting the Yellow Fever

Outbreak of the Scourge in New Orleans. The Mosquito as a Deadly Factor in Spreading the Disease.

WHEN the governor of North Carolina made his historic remark to the governor of South Carolina a precedent was set for the avoidance of interstate hostilities like those recently threatened between the governors of Louisiana and Mississippi. In the present instance, however, Governor Blanchard of Louisiana could not extend to Governor Vandam of Mississippi the customary invitation to "have one," because quarantine regulations keep the former confined to the soil of his own state. The strained relations between the governors and the clash between armed men representing the two commonwealths were due to the efforts of each state to protect itself in its rights in connection with the outbreak of yellow fever in New Orleans and vicinity.

The cities of the southern portion of the United States have so often been devastated by the dreaded scourge of yellow fever in the past that the very name of the disease is sufficient to cause terror; hence the extraordinary precautions adopted in Mississippi when the fever broke out in New Orleans. The fever cases came chiefly from one part of the city, Gallatin street. It is only two blocks in length, yet fifty or more cases have been treated there. Where the fever appeared elsewhere it could be traced back to Gallatin street. The people of New Orleans and of Louisiana have been very active and efficient in fighting the disease and, with the aid of modern medical study of the subject has given them, have been able thus far to prevent such ravages as have been experienced in former years. Dr. Quintman Kolmke, who is at the head of the board of health of the city of New Orleans, and Professor John Guiteras, who has served as an expert in all yellow fever outbreaks since 1881,

DR. JOHN GUITERAS.

have won commendation by the efforts they have made to restrain the spread of the malarial.

Dr. George M. Sternberg, an authority on the subject, says: "Yellow fever is an acute infectious disease which is transmitted from the sick to susceptible individuals through the agency of mosquitoes. The yellow fever mosquito (*Stegomyia fasciata*) is found in tropical and semitropical regions, and especially in lowlands near the sea or in river valleys. This mosquito serves as an intermediate host for the yellow fever parasite, which is present in the blood of those sick with the disease during the first three days of the attack. After filling itself with blood from a yellow fever patient a period of twelve days is required for the development of the parasite in the body of the mosquito before it can transmit the disease by its sting to another individual."

It was in 1900, while Dr. Sternberg was surgeon general, that the board was appointed which gave special study to the subject of yellow fever at Havana and conducted the experiments which have refuted so much light upon the question of restraining the disease. These experiments were made upon individuals who volunteered to submit themselves to mosquito inoculations with a full knowledge of a possibility of serious and even fatal results. Some of these volunteers died, among them Dr. Jesse W. Lazear, a member of the board and a conspicuous martyr in the cause of medical science. Yellow fever is believed by many to be of African origin. Slave ships carried it to American shores and other sections of the globe, and in former times the visit to a port of a ship bearing slaves was often followed by an epidemic. It was in this way that Philadelphia suffered repeatedly from the disease in the seveneenth and eighteenth centuries.

Dr. Guiteras, whose experience with yellow fever is now proving so valuable in New Orleans, was born in Matanzas, Cuba, in 1882. At seventeen years of age he returned to the United States and began the study of medicine at the University of Pennsylvania, from which he graduated in 1903. He was professor in this institution for some years, afterward taking the position of professor of pathology and tropical diseases at the University of Havana. He had General Shafter keep yellow fever from killing American soldiers in the Santiago campaign of 1898.

# Irregularities Alleged.

Topeka, Kan., Aug. 15.—Charges of irregularities in the management of the state industrial school for boys were filed with the board of control here by Dr. Eva Harding, a Topeka physician, against H. W. Charles, the superintendent. It is charged that Charles confiscated liquor sent to the school sufferers in 1902; that "brass knucks" have been used on the boys by the officers of the institution; that one officer has been drawing two salaries; that three officers are drunkards, and that the boys are underfed.

Damaged by Fire.

Philadelphia, Aug. 15.—Logan Hall, in which are located the Wharton school of finance and the anatomical and surgical department of the medical school of the University of Pennsylvania, was damaged by fire to the extent of \$70,000. The greatest loss was entailed by the breaking of microscopes and other delicate instruments, used in the demonstration of histology.

Polish Writer Punished.

Warsaw, Aug. 15.—Governor General Maximovich sentenced Henryk Sienkiewicz, the Polish novelist, to detention for an indeterminate period in his residence for signing and publishing papers in protest against the Russification of schools in Poland. A number of other notables were similarly punished.

Goes to Toledo.

St. Paul, Minn., Aug. 15.—It is reported here that Manager Kelly of the St. Paul baseball club will leave the club at the end of the present season. It is understood that Kelly will join the Toledo (O.) club next year as manager. Secretary Huggins of the St. Paul club, it is also said, will be released immediately upon the return of the club.

Heavy Mortgage Filed.

York, Pa., Aug. 15.—A mortgage for \$10,000,000 was filed in the recorder's office to secure a bond issue to be made by the McCall's Ferry Power company, a corporation of New York, capitalists, who purpose building a power plant in the Susquehanna river near McCall's Ferry, Pa. The Knickerbocker Trust company of New York is named in the mortgage as trustee for the bondholders. The mortgage covers real estate along the river in York and Lancaster counties, Pa., and Cecil and Harford counties, Md., as well as securities in companies that have been consolidated in the power company.

Poisons in Food.

Perhaps you don't realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of indigestion food—or money back, 25c at Hall's Drug Store. Try them.

# CORDIAL INVITATION

ADDRESSED TO WORKING GIRLS

Miss Barrows Tells How Mrs. Pinkham's Advice Helps Working Girls

Girls who work are particularly susceptible to female disorders, especially those who are obliged to stand on their feet from morning until night in stores or factories. Day in and day out the girl toils, and she is often the bread-winner of the family. Whether she is sick or well, whether it rains or shines, she must get to her place of employment, perform the duties exacted of her—smile and be agreeable.

Among these lass the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach. In consequence of frequent wetting of the feet, monthly periods become painful and irregular, and frequently there are faint and dizzy spells, with loss of appetite, until life is a burden. All of these symptoms point to a derangement of the female organism which can be easily and promptly cured by Lydia E. Pinkham's Vegetable Compound.

Miss Abby F. Barrows, Nelsonville, Athens Co., Ohio, tells what this great medicine did for her. She writes:

Dear Mrs. Pinkham—

"I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. I took them I was very nervous, had dull headaches, pains in back, and monthly was irregular. I had been to several doctors, and they did me no good."

"Your medicine has made me well and strong. I can do most any kind of work without complaint, and my periods are all right."

"I am in better health than I ever was, and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer."

It is to such girls that Mrs. Pinkham holds out a helping hand and extends a cordial invitation to correspond with her. Her long record of success in treating women's ills makes her letters of advice of untold value to every ailing working girl, and from her wide experience and skill she quickly points the way to health. Her advice is free, and all letters are held by her in the strictest confidence. Address, Mrs. Pinkham, Lynn, Mass.

## ESTIMATE ON NEW WATER SYSTEM

PRESIDENT LAMB SAYS PRICE THAT IS RUMORED IS NOT CORRECT.

Board of Public Service Gives Reason For Not Disclosing Estimate or Any of the Bids.

Mayor has it that President Davis estimated the total cost of the new city water system was \$1,800,000 and that one of the four bids submitted, all of which were rejected by the Board of Public Service, was \$67,000. Members of the Board of Public Service board to go to verify the reported figure, saying that they had to go to the city engineer to get the bid. The city engineer, however, to do so either the engineer's estimate of the bids submitted. Mr. Lamb Tuesday afternoon said that the four bids were not correct, but he declined to give the right figures.

President Lamb says that the plans are reported by Mr. Davis provide for a water system that will do for Newark for the next 50 years. It is not expected that the water plant will be built at once. A plan to provide for present needs is contemplated and extensions will be made as the city grows.

The city will require \$700,000 or more to build a plant to supply the present needs and an additional bond issue will probably be asked of the citizens. The city will readvertise for bids on the Davis plans which may be altered somewhat before bids are asked the second time.

## WILL READVERTISE

Auditor Maurath Says New Bids For Municipal Water System Will be Asked In the Near Future.

The City Hall this morning presented a scene in marked contrast to those of the past few days, during which time representatives of different construction firms which had bid on the proposed new waterworks plant were ubiquitous, and Auditor Maurath and the members of the board of public service were up to their eyes in the tedious work of tabulating the bids submitted.

Today the regular routine is being some through and all those connected with the City Hall have an expression of relief, as from some terrific strain. "There is absolutely nothing new in

the matter," said Auditor Maurath. "The board exercised its reserved option in rejecting all the bids, and the representatives of the different firms have gone home. As soon as possible we will readvertise for bids on the plan, and hope that we will be able to accept one of the bids to be submitted, and begin work on the plant immediately after letting the contract."

## HAD NARROW ESCAPE

Harry Taylor, superintendent of the Columbus Oil Cloth works, had a rather exciting experience at Buckeye Lake Sunday where he had gone to visit the camp of the Ohio Fishing club, of which he is a member.

A veritable squall struck the lake immediately after Mr. Taylor had started to the camp in a canoe rigged with a small sail. Before Mr. Taylor realized what was happening he had capsized in about 15 feet of water.

The wind forced the capsized craft toward shore and after he had come within 50 yards of the bank Taylor swam ashore. He lost a valise and some other packages which he was taking to camp.—Ohio State Journal.

## DEAD TWO YEARS

But Chief of Police O'Connor Has Just Learned That His Father Is Not Now Among the Living

Columbus, Aug. 15.—After traveling to Boston to see his aged father, to whom he had been almost a stranger for 21 years, Chief of Police O'Connor has returned without having had his wish gratified. Upon his arrival in Boston Chief O'Connor learned through relatives that the father had died two years ago, and because relatives had lost track of him and failed to send him word.

Walter Sanger Pullman, son of the late George M. Pullman, was thrown from a buggy in San Mateo, Cal., and sustained injuries from which he may die.

## WENT TO DENVER

To Spend a Vacation With a Cousin, Whom He Found Dead, Killed by An Auto.

Zanesville, Aug. 15.—Berne Slack left Saturday for Denver, Col., to spend his vacation with his cousin, Dwight Bailey. He arrived there yesterday and, according to a telegram received by his parents, found young Bailey dead. He was killed in an auto accident Saturday night.

## FOLLOWED

His Wife From Ohio to California and Was Stabbed By the Woman When He Found Her.

San Francisco, Aug. 15.—John C. McWilliams of Wooster, O., who has been searching for his wife Pauline since July 29, found her yesterday at her home on Pine street, West Oakland, and after a two-hour argument over their mutual financial interests was thrown out of the house, stabbed in the right forearm by his infuriated wife and escorted to Adeline Station

of the Southern Pacific Company by her half-brothers, John and Wilhelm Schroeder.

McWilliams stated while en route to San Francisco that he would leave for Ohio at once, where he will bring suit for divorce.

"I will not bring any action against my wife," he stated, "as I am positive she is more sincere against sinning. We were married five years ago, and after two years of complete happiness she went back to visit her family."

The Contra River, an affluent of the Orinoco, is remarkable in that it has a natural dam. This takes the form of a ledge of granite over 200 yards in width, over which the current runs with tremendous violence.

## TON OF SNOW

Gift to "Jim" Mills and Other Visiting Eagles at Denver—Snow Was Carried 60 Miles.

Denver, Aug. 15.—The unique gift of nearly a ton of pure snow to the visiting Eagles created considerable of a sensation at Grand lodge headquarters here. The presentation was made on behalf of the members of Local Aerie No. 30 of Denver. The snow was secured at Rollins Pass, on the "Moffat Road," the line being constructed to Salt Lake, and was found in large quantities at an elevation of 11,000 feet, 60 miles from Denver.
